Can I recycle my pizza box?

Many people assume that pizza boxes are recyclable. In fact, most boxes have recycling symbols on them and are traditionally made from corrugated cardboard. Pizza boxes are, in and of themselves, recyclable.

However, the grease and oil left behind by the tasty treat inside makes parts of a pizza box non-recyclable.

Food is one of the worst contaminants in the paper recycling process, as grease and oil can not be separated from the paper fibers during the recycling process.

How should I recycle my pizza box?

Greasy box?

Cut away and recycle clean portion; discard greasy portion.

Clean box?

Recycle entire box if it is completely free of food and grease.
